THERMOSASH TERRACOTTA

Enhanced aesthetics and performance.

Terracotta have emerged as a popular choice for architectural façades, combining timeless beauty with exceptional functionality. These innovative cladding systems offer a range of benefits, including superior weather resistance, durability, and design versatility. With their unique texture, colour variations, and ability to withstand harsh elements, terracotta in rainscreens or **Thermosash total clad solutions** provide architects and designers with endless possibilities to create striking and sustainable building exteriors and transform the visual appeal and performance of any structure.

We offer terracotta from 4 sources worldwide to make sure that you will always find the perfect fit for your project.

TIMELESS ELEGANCE

Terracotta exudes a sense of timeless elegance that transcends architectural styles. Whether adorning contemporary masterpieces or historic landmarks, terracotta brings an air of sophistication and refinement to any building design. Its warm, natural hues create a harmonious connection with the surroundings, making it a versatile choice for both urban and natural landscapes.

SUSTAINABLE BEAUTY

As advocates for sustainable architecture, we take pride in offering environmentally friendly building solutions. Terracotta is an inherently eco-conscious choice, sourced from natural materials. Its exceptional thermal mass properties contribute to energy efficiency, reducing overall building heating and cooling requirements.

DESIGN FREEDOM

Terracotta cladding opens up a world of design possibilities. With an array of shapes, sizes, colours and textures available, you have the creative freedom to craft unique and captivating façades. From intricate patterns to modern sleek lines, our terracotta panels can be customized to bring your architectural vision to life, adding character and distinction to your building.

SOURCED WORLDWIDE

We source the finest terracotta from around the world to meet your unique project needs. We take pride in offering a comprehensive range of options from four suppliers located in New Zealand, China, Germany, and Spain. Each supplier is carefully selected for their unparalleled expertise and dedication to quality. Our global network of suppliers allows us to provide you with the best-in-class terracotta panels, ensuring your building's façade reflects sophistication, durability, and enduring beauty.

DURABLE AND WEATHER-RESISTANT

Terracotta is built to last proving its durability, over time. Our terracotta panels are made from top quality clay and designed to withstand fading, cracking and other environmental pressures. This ensures that your building will maintain its charm for years. Regardless of the weather conditions terracotta remains resilient against the elements making it an excellent choice for projects, in all climates.

LOW MAINTENANCE AND LONGEVITY

Say goodbye to the hassles of frequent maintenance. Terracotta requires minimal upkeep, ensuring that your building maintains its original allure with minimal effort. Its non-combustible nature and resistance to mold and mildew make it a hygienic and long-lasting choice for any building project.

PARTNER WITH US

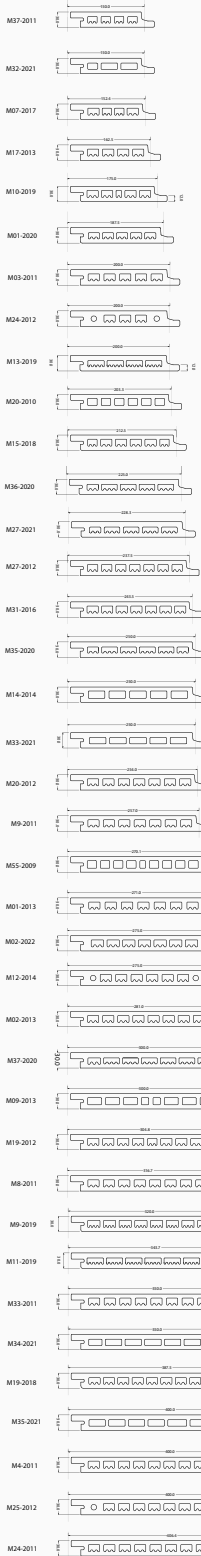

As industry leaders in façade solutions, we are committed to providing the highest quality products and exceptional customer service. Our team of experts will work closely with you to understand your project requirements, offering tailored solutions that align with your design aspirations.
